

SPRINGFIELD
Ⓢ
NUCLEAR POWER PLANT

“A Nuclear Power Plant in
the Springfield Tradition.”

A Letter from Our President and CEO

Dear Visitor:

This nuclear power plant was not always the towering triumph you see before you today. Although it may seem to many of you to be an eternal part of Springfield (especially considering the lengthy half-life of many of our byproducts), it began years ago as a simple dream—the dream of a humble man possessed only of a vast parcel of undeveloped real estate, several million dollars, and a burning desire for a tax-advantaged investment opportunity.

I'd like to thank you for helping me realize my dream by visiting the Springfield Nuclear Power Plant. While you're here, you might want to thank your lucky stars that Springfield doesn't get its energy from some noisy hydroelectric dam or dark, stuffy coal mine which doesn't offer tours.

Very Sincerely,
C. Montgomery Burns
President and CEO

D'oh!

This is Lisa Simpson. She's smart, she's sweet,
she's sensitive... but don't hold that against
her.

I'm Bart Simpson. Who the hell are you?

Mmmm...

Suck. Suck.
