
Contents

I	First Concepts	3
1	Two Definitions of Lattices	3
	Orders	3
	Generating orders	4
	Basic concepts	4
	Ordering and covers	6
	Order diagrams	7
	Order constructions	7
	Lattices as orders	8
	Lattices as algebras	11
2	How to Describe Lattices	18
	Lattice diagrams	18
	Join- and meet-tables	18
	Combinations	19
3	Some Algebraic Concepts	26
	Isomorphisms	26
	Homomorphisms	27
	Sublattices and extensions	28
	Ideals	28
	Intervals	32
	Congruences	32
	Homomorphisms	36
	Congruences and extensions	37
	Direct products	38
	Closure systems	40
	Galois connections	41
	Complete lattices	43
4	Terms, Identities, and Inequalities	49
	Terms	49
