# Test of hyperref

ZN

June 21, 2020

## Contents

## 1 first section

### 1.1 a subsection

Maybe some text

**Theorem 1.1.** *A stupid but superficially profound statement, involving*

$$\mathfrak{a} + \mathfrak{b} = \mathfrak{c} + \mathfrak{d} - \mathfrak{A} \tag{1}$$

### 1.2 More nonsense

Some more text

**Proposition 1.2.** *The correct equation is*

$$Y = X \tag{2}$$

## 2 Conclusions

Compare Equation (1) in Theorem 1.1 (§ 1.1 (in § 1) with Equation (2) in Proposition 1.2 (§ 1.2). Who cares?
